Product Catalogue

DMS Global Supply · BUILT TO SUPPLY

Products are what DMS can source, across fifteen categories. Items are available on request, subject to sourcing and availability.

Applicable standards and certifications depend on the product, manufacturer, specification and intended use. They are confirmed in the quotation, together with the documentation that is available.

PPE & Safety

Personal protective equipment for sites and industrial environments.

- Safety helmets
- High-visibility clothing
- Safety boots
- Protective gloves
- Respiratory masks
- Eye and hearing protection

Available on request

Professional Tools

Power tools and hand tools for trades and maintenance.

- Cordless power tools
- Grinders and drills
- Rotary hammers
- Laser levels and measuring tools
- Hand tools

Available on request

Electrical Equipment

Distribution and protection equipment for installations.

- Circuit breakers and panels
- Switches, sockets and lighting
- Enclosures
- Cable trays and conduits

Available on request

Cables & Accessories

Power and installation cables with connection accessories.

- U-1000 R2V cables, various sections
- Flexible cables
- Lugs and connectors
- Cable glands

Available on request

Locks & Security Hardware

Locking and door hardware for buildings and facilities.

- Lock sets
- Security padlocks
- Door handles and fittings
- Hinges and door closers
- Access control hardware

Available on request

Water supply, drainage and sanitary fittings.

- Mixers and faucets
- PVC, PPR and stainless pipes
- Pumps
- Sanitary sets
- Water treatment items

Available on request

Construction Materials

Structural and finishing materials for building works.

- Cement
- Reinforcing bars
- Formwork
- Blocks and bricks
- Finishing materials

Available on request

Construction Equipment

Light construction equipment for sites.

- Concrete mixers
- Vibrating plates
- Generators
- Water pumps
- Scaffolding systems

Available on request

Industrial Supplies

Technical items and consumables for production sites.

- Fasteners and fixings
- Abrasives and cutting consumables
- Lubricants and sealants
- Technical hardware

Available on request

Maintenance Supplies

Consumables and tools for planned and corrective maintenance.

- Maintenance tools
- Spare consumables
- Cleaning and site consumables
- Workshop supplies

Available on request

Fleet & Automotive Maintenance

Filters, batteries, belts, hoses and mechanical consumables to keep vehicles, trucks and heavy equipment in service.

- Oil, air and fuel filters
- Batteries
- Belts
- Hoses
- Mechanical parts and consumables
- Workshop tools
- Fleet maintenance products

Available on request

Tires

Tires for light vehicles, trucks, commercial vehicles and heavy equipment.

- Light vehicle tires
- Truck and commercial vehicle tires
- Heavy-duty tires
- OTR tires for mining, quarry and construction equipment, where applicable

Available on request

Lubricants & Fluids

Lubricants and fluids for fleets, heavy equipment and industrial applications.

- Engine oils
- Hydraulic fluids
- Gear oils
- Transmission fluids
- Greases
- Coolants

Available on request

Mining-related Supplies

Safety, maintenance and site items for mining operators and contractors. A capability DMS is developing.

- Personal protective equipment
- Safety signage
- Maintenance tools for site use
- Gas detection equipment

Available on request

Equipment Sourcing

Project-by-project sourcing of equipment not covered above, including heavier equipment.

- Equipment identified against a specification
- Supplier search and comparison
- Transport coordination

Available on request
