Corporate Overview

DMS Global Supply · BUILT TO SUPPLY

DMS Global Supply is a Conakry-based procurement, sourcing and supply company serving construction, industry, infrastructure, mining-related operations, transport, fleet maintenance and commercial projects.

We source. Fifteen product categories, from safety equipment, tools and electrical supplies to construction materials, industrial consumables, tires, lubricants and fleet maintenance. Local first, then through other supply channels when the requirement calls for it.

We coordinate. Supplier identification, written quotations, documentation and logistics, handled through a single procurement contact.

We supply. Delivery to your site in Guinea, with delivery documentation and follow-up after the order.

Fleet & automotive maintenance

Tires, lubricants, filters and workshop supplies for vehicles, trucks and heavy equipment, through one procurement contact.

Tires. Light vehicle, truck, commercial and heavy-duty tires. OTR tires where applicable.

Lubricants & fluids. Engine, hydraulic and gear oils, transmission fluids, greases and coolants.

Filters, batteries, belts & hoses. Oil, air and fuel filters, batteries, belts, hoses and mechanical consumables.

Workshop & maintenance. Workshop tools and maintenance supplies for fleet and equipment upkeep.

Who DMS serves

Contractors, industrial sites, transport and fleet operators, maintenance teams and private builders in Guinea, with a supply approach that is progressively extending across West Africa.

- Construction & BTP
- Mining & Mining Contractors
- Industry & Manufacturing
- Infrastructure
- Facilities & Maintenance
- Transport & Fleet
- Commercial Projects
- Residential & Private Projects

Why contact DMS

One procurement contact. You describe the requirement once. DMS handles the search, the quotation and the follow-up.

Roots in the local market. DMS traces its roots to 1999 in Conakry. That experience shapes how we read a site requirement.

A written process. Every request receives an RFQ number, a written quotation and delivery documentation.

Structured and growing. A documented process today, with digital tools such as a client portal and online tracking in development.
